

Policy 713 Student Activity Accounting

Fundraising events/activities that benefit the school or service organizations **MUST** be approved by the PTO (Parent Teacher Organization) fundraising committee. Any activity/event intending to raise \$1500 or more and/or involves school facilities must also be approved by the school administration.

Federal law regulates how fundraising monies may be used. Funds raised belong to the Parent Teacher Organization for the benefit of the school, and while they may be designated for a specific use, this no way implies that specific students or classes are entitled to unused funds.
