

Beacon Academy Total Special Education System (TSES)

This document serves as the Total Special Education System Plan for Beacon Academy in accordance with Minnesota Rule 3525.1100. This plan also includes an assurance for compliance with the federal requirements pertaining to districts' special education responsibilities found in United States Code, title 20, chapter 33, and Code of Federal Regulations, title 34, part 300. This document is a companion to the Application for Special Education Funds – Statement of Assurances (ED-01350-29).

Kori Ryan, Beacon Academy's special education director, is responsible for program development, coordination, and evaluation; in-service training; and general special education supervision and administration. Kori Ryan may be reached at 612-225-5394 or kryan@indogoed.org.

I. Child Study Procedures

The District's identification system is developed according to the requirement of nondiscrimination as Beacon Academy does not discriminate in education on the basis of race, color, creed, religion, national origin, sex, age, marital status, status with regard to public assistance, sexual orientation, or disability.

A. Identification

Beacon Academy has developed systems designed to identify pupils with disabilities beginning at birth, pupils with disabilities attending public and nonpublic schools, and pupils with disabilities who are of school age and are not attending any school.

The team shall determine that a child from the age of 3 years through the age of 6 years is eligible for special education when:

- A. The child meets the criteria of one of the categorical disabilities in United States Code, title 20, chapter 33, as defined in Minnesota Rules; or
- B. The child meets one of the criteria for developmental delay in subitem (1) and the criteria in subitem (2). *Beacon Academy* has elected the option of implementing these criteria for developmental delay.

(1) The child:

- (a) *Has a diagnosed physical or mental condition or disorder that has a high probability or resulting in developmental delay; or*
- (b) *Has a delay in each of two or more of the areas of cognitive development; physical development, including vision and hearing; communication development; social or emotional development; and adaptive development, that is verified by an evaluation using one or more technically adequate, norm-referenced instruments. The instruments must be individually administered by appropriately trained professionals and the scores must be at least 1.5 standard deviations below the mean in each area.*

(2) The child's need for special education is supported by:

- (a) *At least one documented, systematic observation in the child's routine setting by an appropriate professional or, if observation in the daily routine setting is not possible, the alternative setting must be justified;*

- (b) *A developmental history; and*
- (c) *At least one other evaluation procedure in each area of identified delay that is conducted on a different day than the medical or norm-referenced evaluation; which may include criterion references instruments, language samples, or curriculum-based measures.*

Beacon Academy's plan for identifying a child with a specific learning disability is consistent with Minnesota Rule 3525.1341. *Beacon Academy* implements its interventions consistent with that plan. The plan does not use SRBI.

Beacon Academy's plan for identifying a child with a specific learning disability is attached as Appendix A.

B. Evaluation

Evaluation of the child and assessment of the child and family will be conducted in a manner consistent with Code of Federal Regulations, title 34, section 303.321.

- A. *General.* (1) The lead agency must ensure that, subject to obtaining parental consent in accordance with § 303.420(a)(2), each child under the age of three who is referred for evaluation or early intervention services under this part and suspected of having a disability, receives—
 - (i) A timely, comprehensive, multidisciplinary evaluation of the child in accordance with paragraph (b) of this section unless eligibility is established under paragraph (a)(3)(i) of this section; and
 - (ii) If the child is determined eligible as an infant or toddler with a disability as defined in § 303.21;
 - (A) A multidisciplinary assessment of the unique strengths and needs of that infant or toddler and the identification of services appropriate to meet those needs;
 - (B) A family-directed assessment of the resources, priorities, and concerns of the family and the identification of the supports and services necessary to enhance the family's capacity to meet the developmental needs of that infant or toddler. The assessments of the child and family are described in paragraph (c) of this section and these assessments may occur simultaneously with the evaluation, provided that the requirements of paragraph (b) of this section are met.
- (2) As used in this part—
 - (i) *Evaluation* means the procedures used by qualified personnel to determine a child's initial and continuing eligibility under this part, consistent with the definition of *infant or toddler with a disability* in § 303.21. An *initial evaluation* refers to the child's evaluation to determine his or her initial eligibility under this part;
 - (ii) *Assessment* means the ongoing procedures used by qualified personnel to identify the child's unique strengths and needs and the early intervention services appropriate to meet those needs throughout the period of the child's eligibility under this part and includes the assessment of the child, consistent with paragraph (c)(1) of this section and the assessment of the child's family, consistent with paragraph (c)(2) of this section; and
 - (iii) *Initial assessment* refers to the assessment of the child and the family assessment conducted

prior to the child's first IFSP meeting.

(3)(i) A child's medical and other records may be used to establish eligibility (without conducting an evaluation of the child) under this part if those records indicate that the child's level of functioning in one or more of the developmental areas identified in § 303.21(a)(1) constitutes a developmental delay or that the child otherwise meets the criteria for an infant or toddler with a disability under §303.21. If the child's part C eligibility is established under this paragraph, the lead agency or EIS provider must conduct assessments of the child and family in accordance with paragraph (c) of this section.

(ii) Qualified personnel must use informed clinical opinion when conducting an evaluation and assessment of the child. In addition, the lead agency must ensure that informed clinical opinion may be used as an independent basis to establish a child's eligibility under this part even when other instruments do not establish eligibility; however, in no event may informed clinical opinion be used to negate the results of evaluation instruments used to establish eligibility under paragraph (b) of this section.

(4) All evaluations and assessments of the child and family must be conducted by qualified personnel, in a nondiscriminatory manner, and selected and administered so as not to be racially or culturally discriminatory.

(5) Unless clearly not feasible to do so, all evaluations and assessments of a child must be conducted in the native language of the child, in accordance with the definition of *native language* in § 303.25.

(6) Unless clearly not feasible to do so, family assessments must be conducted in the native language of the family members being assessed, in accordance with the definition of *native language* in § 303.25.

B. Procedures for evaluation of the child. In conducting an evaluation, no single procedure may be used as the sole criterion for determining a child's eligibility under this part. Procedures must include –

(1) Administering an evaluation instrument;

(2) Taking the child's history (including interviewing the parent);

(3) Identifying the child's level of functioning in each of the developmental areas in § 303.21(a)(1);

(4) Gathering information from other sources such as family members, other care-givers, medical providers, social workers, and educators, if necessary, to understand the full scope of the child's unique strengths and needs; and

(5) Reviewing medical, educational, or other records.

The team conducts an evaluation for special education purposes within a reasonable time not to exceed 30 school days from the date the district receives parental permission to conduct the evaluation or the expiration of the 14 calendar-day parental response time in cases other than initial evaluation, unless a conciliation conference or hearing is requested.

Beacon Academy conducts full and individual initial evaluation before the initial provision of special

education and related services to a pupil. The initial evaluation consists of procedures to determine whether a child is a pupil with a disability that adversely affects the child's educational performance as defined in Minnesota Statutes, section 125A.02, who by reason thereof needs special education and related services, and to determine the educational needs of the pupil. The district proposing to conduct an initial evaluation to determine if the child qualifies as a pupil with a disability obtains informed consent from the parent of the child before the evaluation is conducted. Parental consent for evaluation is not construed as consent for placement for receipt of special education and related services. The District will not override the written refusal of a parent to consent to an initial evaluation or re-evaluation.

Evaluation Procedures

Evaluations and reevaluations are conducted according to the following procedures:

- A. *Beacon Academy* shall provide notice to the parents of the pupil, according to Code of Federal Regulations, title 34, sections 300.500 to 300.505, that describes any evaluation procedures the district proposes to conduct.
- B. In conducting the evaluation, *Beacon Academy*:
 - (1) Uses a variety of evaluation tools and strategies to gather relevant functional and developmental information, including information provided by the parent, that are designed to assist in determining whether the child is a pupil with a disability and the content of the pupil's individualized education program, including information related to enabling the pupil to be involved in and progress in the general curriculum, or for preschool pupils, to participate in appropriate activities;
 - (2) Does not use any single procedure as the sole criterion for determining whether a child is a pupil with a disability or determining an appropriate education program for the pupil; and
 - (3) Uses technically sound instruments that are designed to assess the relative contribution of cognitive and behavioral factors, in addition to physical or developmental factors.
- C. *Beacon Academy* ensures that:
 - (1) Tests and other evaluation materials used to evaluate a child under this part are selected and administered so as not be discriminatory on a racial or cultural basis, and are provided and administered in the pupil's native language or other mode of communication, unless it is clearly not feasible to do so;
 - (2) Materials and procedures used to evaluate a child with limited English proficiency are selected and administered to ensure that they measure the extent to which the child has a disability and needs special education and related services, rather than measure the child's English language skills;
 - (3) Any standardized tests that are given to the child have been validated for the specific purpose for which they are used, are administered by trained and knowledgeable personnel, and are administered in accordance with any instructions provided by the producer of such tests;
 - (4) The child is evaluated in all areas of suspected disability, including, if appropriate, health, vision, hearing, social and emotional status, general intelligence, academic performance, communicative status, and motor abilities;
 - (5) Evaluation tools and strategies that provide relevant information that directly assists persons in determining the educational needs of the pupil are provided;
 - (6) If an evaluation is not conducted under standard conditions, a description of the extent to which it

varied from standard conditions must be included in the evaluation report;

- (7) Tests and other evaluation materials include those tailored to evaluate specific areas of educational need and not merely those that are designed to provide a single general intelligence quotient;
 - (8) Tests are selected and administered so as best to ensure that if a test is administered to a child with impaired sensory, manual, or speaking skills, the test results accurately reflect the child's aptitude or achievement level or whatever other factors the test purports to measure, rather than reflecting the child's impaired sensory, manual, or speaking skills, unless those skills are the factors that the test purports to measure; and
 - (9) In evaluating each pupil with a disability, the evaluation is sufficiently comprehensive to identify all of the pupil's special education and related service needs, whether or not commonly linked to the disability category in which the pupil has been classified.
- D. Upon completion of administration of tests and other evaluation materials, the determination of whether the child is a pupil with a disability as defined in Minnesota Statutes, section 125A.02, shall be made by a team of qualified professionals and the parent of the pupil in accordance with item E, and a copy of the evaluation report and the documentation of determination of eligibility will be given to the parent.
- E. In making a determination of eligibility under item D, a child shall not be determined to be a pupil with a disability if the determinant factor for such determination is lack of instruction in reading or math or limited English proficiency, and the child does not otherwise meet eligibility criteria under parts 3525.1325 to 3525.1351.

Additional requirements for evaluations and reevaluations

- A. As part of an initial evaluation, if appropriate, and as part of any reevaluation under this part, or a reinstatement under part 3525.3100, the IEP team and other qualified professionals, as appropriate, shall:
- (1) Review existing evaluation data on the pupil, including evaluations and information provided by the parents of the pupil, current classroom-based assessments and observations, and teacher and related services providers observation; and
 - (2) On the basis of the review, and input from the pupil's parents, identify what additional data, if any, are needed to determine whether the pupil has a particular category of disability, as described in Minnesota Statutes, section 125A.02, or, in case of a reevaluation of a pupil, whether the pupil continues to have such a disability, the present levels of performance and educational needs of the pupil, whether the pupil needs special education and related services, or in the case of a reevaluation of a pupil, whether the pupil continues to need special education and related services, and whether any additions or modifications to the special education and related services are needed to enable the pupil to meet the measurable annual goals set out in the individualized education program of the pupil and to participate, as appropriate, in the general curriculum.
- B. The district administers such tests and other evaluation materials as may be needed to produce the data identified by the IEP team under item A, subitem (2).
- C. The district obtains informed parental consent, in accordance with subpart 1, prior to conducting any reevaluation of a pupil, except that such informed parental consent need not be obtained if the district can demonstrate that it had taken reasonable measures to obtain such consent and the pupil's parent has failed to respond.
- D. If the IEP team and other qualified professionals, as appropriate, determine that no additional data are needed to determine whether the pupil continues to be a pupil with a disability, the district shall

notify the pupil's parents of that determination and the reasons for it, and the right of such parents to request an evaluation to determine whether the pupil continues to be a pupil with a disability, and shall not be required to conduct such an evaluation unless requested to by the pupil's parents.

- E. A district evaluates a pupil in accordance with federal regulation before determining that the pupil is no longer a pupil with a disability.

Procedures for determining eligibility and placement

- A. In interpreting the evaluation data for the purpose of determining if a child is a pupil with a disability under parts 3525.1325 to 3525.1351 and the educational needs of the child, the school district:
- (1) Draws upon information from a variety of sources, including aptitude and achievement tests, parent input, teacher recommendations, physical condition, social or cultural background, and adaptive behavior; and
 - (2) Ensures that the information obtained from all of the sources is documented and carefully considered.
- B. If a determination is made that a child is a pupil with a disability who needs special education and related services, an IEP is developed for the pupil according to Minnesota Rule 3525.2810.

Evaluation report

An evaluation report is completed and delivered to the pupil's parents within the specified evaluation timeline. At a minimum, the evaluation report includes:

- A. A summary of all evaluation results;
- B. Documentation of whether the pupil has a particular category of disability or, in the case of a reevaluation, whether the pupil continues to have such a disability;
- C. The pupil's present levels of performance and educational needs that derive from the disability;
- D. Whether the child needs special education and related services or, in the case of a reevaluation, whether the pupil continues to need special education and related services; and
- E. Whether any additions or modifications to the special education and related services are needed to enable the pupil to meet the measurable annual goals set out in the pupil's IEP and to participate, as appropriate, in the general curriculum.

C. Plan for Receiving Referrals

Beacon Academy's plan for receiving referrals from parents, physicians, private and public programs, and any health and human services agency is attached as Appendix B.

II. Method of Providing the Special Education Services for the Identified Pupils

Beacon Academy provides a full range of educational service alternatives. All students with disabilities are provided the special instruction and services which are appropriate to their needs. The following is representative of *Beacon Academy's* method of providing the special education services for the identified pupils, sites available at which service may occur, and instruction and related services are available.

Appropriate program alternatives to meet the special education needs, goals, and objectives of a pupil are determined on an individual basis. Choice of specific program alternatives are based on the pupil's current levels of performance, pupil special education needs, goals, and objectives, and must be written in the IEP. Program alternatives are comprised of the type of services provided the setting in which

services occur, and the amount of time and frequency in which special education services occur. A pupil may receive special education services in more than one alternative based on the IEP or IFSP.

A. Method of providing the special education services for the identified pupils:

- (1) One on one or small group
- (2) Co-Teaching
- (3) Indirect Service
- (4) Related Service
- (5) Direct Service in the general education classroom
- (6) Accommodations and Modifications in conjunction with special education services

B. Sites available at which services may occur:

- (1) Beacon Academy, 3415 Louisiana Ave N Crystal, MN 55427

C. Available instruction and related services:

- Occupational Therapy
- Physical Therapy
- Deaf/Hard of Hearing
- Blind/Visually Impaired
- Speech Language Pathologist
- Developmentally Adapted Physical Education (DAPE)
- Social Work
- Early Childhood
- Physical Impairment
- Autism Specialist
- Audiology
- Special Transportation
- School Psychologist for evaluation of students
- Other services as determined by the individualized education plan (IEP) team to meet free and appropriate public education (FAPE)

Should a child demonstrate an additional need, Beacon Academy takes full responsibility to work collaboratively with the resident district and the IEP to identify appropriate placement options for the student. This could include access to programs specializing in Cognitive Disabilities, Autism Spectrum Disorders, and Emotional Behavioral Challenges for those students who struggle in our small and highly structured environment.

III. Administration and Management Plan.

Beacon Academy utilizes the following administration and management plan to assure effective and efficient results of child study procedures and method of providing special education services for the identified pupils:

- A. The following table illustrates the organization of administration and management to assure effective and efficient results of child study procedures and method of providing special education services for the identified pupils:

Staff Name and Title	Contact Information (phone/email/ mailing address/office location)	Brief Description of Staff Responsibilities Relating to Child Study Procedures and Method of Providing Special Education Services
Lori Foecke, Special Education Coordinator	Phone: 763-546-9999 X1113 Email: lfoecke@beaconacademy.com Location: 3415 Louisiana Ave N Crystal, MN 55427	Consult with general education child study team, monitor and support due process procedures for Beacon, bring referrals from child study team to special education team
Sean Koster, Principal	Phone: 763-546-9999 X1107 Email: skoster@beaconacademy.com Location: 3415 Louisiana Ave N Crystal, MN 55427	Meets with general education teachers to help gather data and discuss plan interventions, evaluate data from interventions with child study team
Michael Reeder, Assistant Principal	Phone: 763-546-9999 X1104 Email: mreeder@beaconacademy.com Location: 3415 Louisiana Ave N Crystal, MN 55427	Meets with general education teachers to help gather data and discuss plan interventions, evaluate data from interventions with child study team
Kori Ryan, Special Education Director	Contracted Special Education Director Indigo Education Services Phone: 612-225-5394 Email: kryan@indigoed.org 1170 Red Fox Road Arden Hills , MI 55112	Regular consultation and communication with the special education coordinator regarding due process procedures, compliance and reporting

- B. Due Process assurances available to parents: *Beacon Academy* has appropriate and proper due process procedures in place to assure effective and efficient results of child study procedures and method of providing special education services for the identified pupils, including alternative dispute resolution and due process hearings. *A description of these processes are as follows:*

- (1) Prior written notice to a) inform the parent that except for the initial placement of a child in special education, the school district will proceed with its proposal for the child's placement or for providing special education services unless the child's parent notifies the district of an objection within 14 days of when the district sends the prior written notice to the parent; and b) state that a

parent who objects to a proposal or refusal in the prior written notice may request a conciliation conference or another alternative dispute resolution procedure.

- (2) *Beacon Academy* will not proceed with the initial evaluation of a child, the initial placement of a child in a special education program, or the initial provision of special education services for a child without the prior written consent of the child's parent. A district may not override the written refusal of a parent to consent to an initial evaluation or reevaluation.
- (3) A parent, after consulting with health care, education, or other professional providers, may agree or disagree to provide the parent's child with sympathomimetic medications unless medical, dental, mental and other health services are necessary, in the professional's judgment, that the risk to the minor's life or health is of such a nature that treatment should be given without delay and the requirement of consent would result in delay or denial of treatment.
- (4) Parties are encouraged to resolve disputes over the identification, evaluation, educational placement, manifestation determination, interim alternative educational placement, or the provision of a free appropriate public education to a child with a disability through conciliation, mediation, facilitated team meetings, or other alternative process. All dispute resolution options are voluntary on the part of the parent and must not be used to deny or delay the right to a due process hearing. All dispute resolution processes are provided at no cost to the parent.
- (5) Conciliation Conference: a parent has the opportunity to meet with appropriate district staff in at least one conciliation conference if the parent objects to any proposal of which the parent receives prior written notice. *Beacon Academy* holds a conciliation conference within ten calendar days from the date the district receives a parent's objection to a proposal or refusal in the prior written notice. All discussions held during a conciliation conference are confidential and are not admissible in a due process hearing. Within five school days after the final conciliation conference, the district must prepare and provide to the parent a conciliation conference memorandum that describes the District's final proposed offer of service. This memorandum is admissible in evidence in any subsequent proceeding.
- (6) In addition to offering at least one conciliation conference, *Beacon Academy* informs parents of other dispute resolution processes, including at least mediation and facilitated team meetings. The fact that an alternative dispute resolution process was used is admissible in evidence at any subsequent proceeding. State-provided mediators and team meeting facilitators shall not be subpoenaed to testify at a due process hearing or civil action under special education law nor are any records of mediators or state-provided team meeting facilitators accessible to the parties.
- (7) Descriptions of the mediation process, facilitated team meetings, state complaint, and impartial due process hearings may be found in *Beacon Academy* Procedure Safeguard Notice, attached as Appendix C.

IV. Interagency Agreements the District has Entered

Beacon Academy has no interagency agreements currently.

V. Special Education Advisory Council

In order to increase the involvement of parents of children with disabilities in district policy making and decision making, *Beacon Academy* has a special education advisory council.

- A. *Beacon Academy's* Special Education Advisory Council is *individually established*.
- B. *Beacon Academy's* Special Education Advisory Council is *not* a subgroup.
- C. At least half of *Beacon Academy's* parent advisory councils' members are parents of students with a disability.

The district does not have a nonpublic school located in its boundaries.

Each local council meets no less than once each year.

- D. *Beacon Academy's* Special Education Advisory Council meets 11/8/18 and 4/11/19.
- E. The operational procedures of *Beacon Academy's* Special Education Advisory Council are attached as Appendix D.

VI. Assurances

Code of Federal Regulations, section 300.201: Consistency with State policies. *[XYZ District]*, in providing for the education of children with disabilities within its jurisdiction, has in effect policies, procedures, and programs that are consistent with the State policies and procedures established under sections 300.101 through 300.163, and sections 300.165 through 300.174. (Authority: 20 U.S.C. § 1413(a)(1)).

Yes: Assurance given.
